

**AMENDMENTS TO THE SPECIFICATION**

- I. Please replace paragraph [0025] on page 10 with the following amended paragraph [0025].

[0025] In the second to ~~forth~~ fourth embodiments, the one end portion 24a of the auxiliary board 24 is laid on the one end portion 14a of the circuit board 14. However, it is also possible to lay the one end portion 14a of the circuit board 14 on the one end portion 24a of the auxiliary board 24. In such a case, this can be achieved by merely forming a recess in the inner surface of the case 1 at the side of the output terminal 3 for laying the auxiliary board 24, a through hole 41 in the one end portion 14a of the circuit board 14, and a photoresist 42 on and around the perimeter of the circuit land pattern formed on the one end portion 24a of the auxiliary board 24.
